- First of all, the Summer Internship wasn't all work. We had a great deal of fun during the Summer. There was real comradeship and spirit in the house; and Rochester, NY is a lot of fun.
- I think we all grew spiritually by helping the needy on a daily basis. You can learn more in one day helping Saint Joe's guests than you can learn in a semester. It is philosophy in action. We were blessed to be in position where we could live our faith and help others. It was transformative.
